

# Opulentus made my dreams come true

I came across Opulentus visa consultancy in Google while I was searching for some visa update news. I clicked the page and found that they process visas for several countries.

As I always wanted to migrate to Canada, I thought of giving it a try with Opulentus. My first concern was—how much fee Opulentus charges.

This was in fact my first query. They told about fee and said that it was low compared to other visa consultancies. I was still not sure if I can handover my documents to Opulentus or not.

Therefore, I went through some of [Opulentus reviews online](#). I found them to be very interesting. Through those reviews, I came to know that the success rate at Opulentus was comparatively high.

Finally, I made up my mind and submitted all my documents to Opulentus. As I am experienced professional, I met all the requirements for FSW program.

Opulentus guys processed my visa timely and I successfully went to Canada within two years. Now I am planning to sponsor my parents to Canada. Although I now know some other consultancies too in Canada, I will approach Opulentus.
